### **Monitor Mixes/Outputs:**

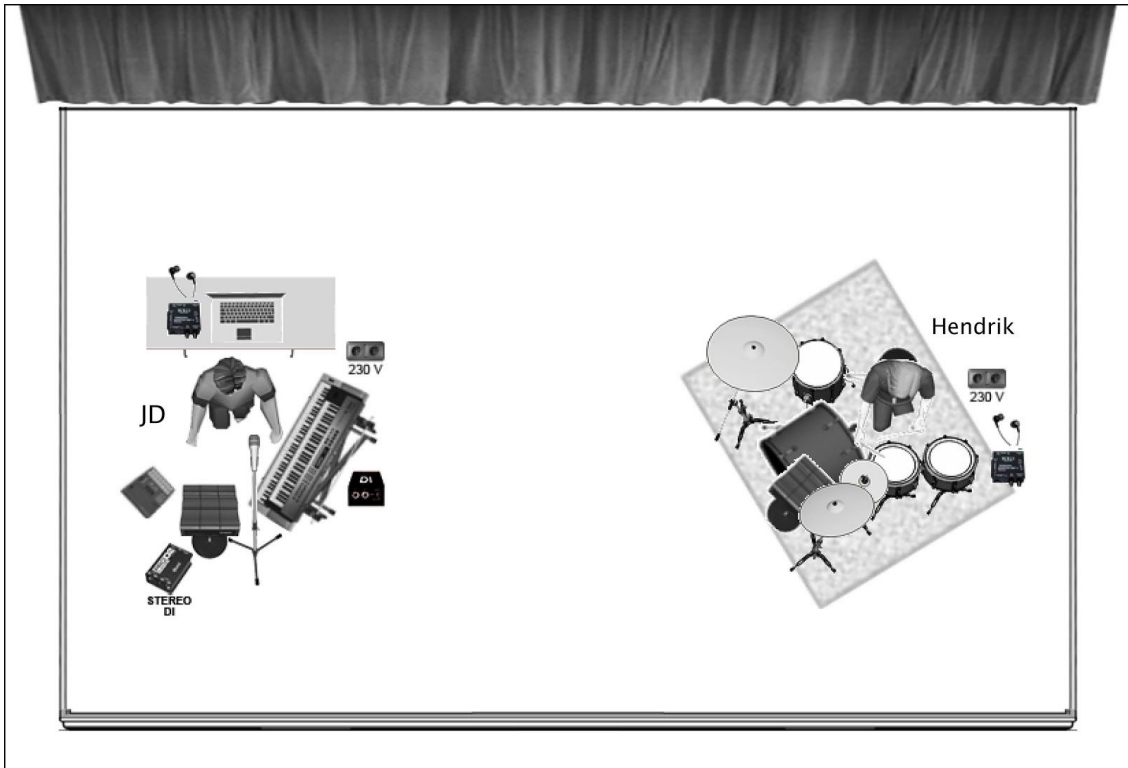

Mix 1&2 ->

Mix 3&4 ->

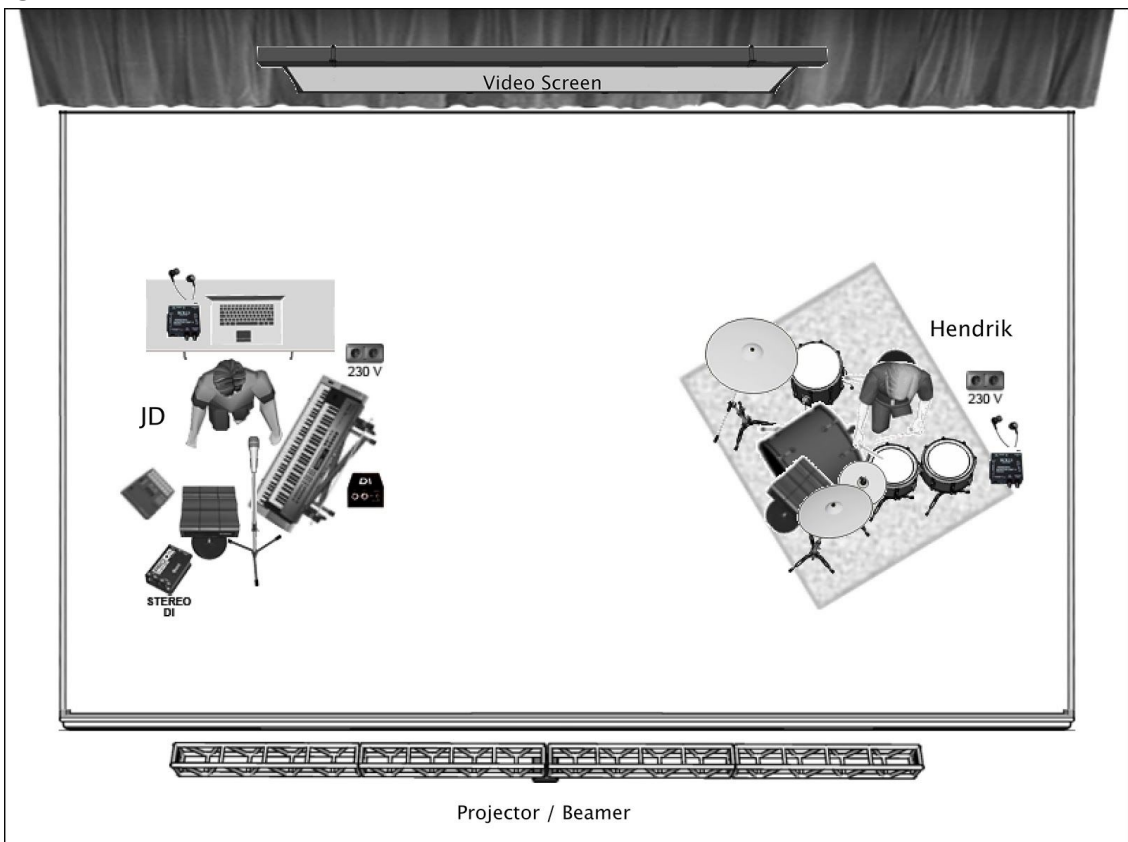

1. The band carries their own in-ear headphones.
2. Both band members need stereo feeds on ¼" TRS or XLR at their stage positions.

**Stage Plot (no video):**

**Stage Plot (with video):**

**Sound Check:**

The sound, stage, and lighting systems must be fully operational prior to bands load-in time. Sound check will be scheduled prior to the opening of doors. Only working personnel will be allowed in venue during sound check unless authorized by the band.

- No changes to the stage will be allowed after sound check.
- Recording audio/video of the performance is prohibited unless authorized by the band.

**PA / FOH:**

1. System must consist of adequate loudspeakers and amplification to cover the venue's maximum capacity and to provide solid bass response.
2. System shall have even coverage throughout the venue.
3. System should be configured in stereo (LR).
4. Monitors will be mixed from FOH unless specified otherwise.
5. FOH console must have at least 16 input channels reserved for band, with at least 4 AUX sends for monitors plus additional FX (reverb/delay).
6. Drum bus compressor would be much appreciated.
7. FOH console must be placed front and center from the stage.
